INDEPENDENT AUDITOR'S REPORT

September 27, 2022

Board of Directors Delaware Military Academy Charter School Wilmington, Delaware

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Delaware Military Academy Charter School ("the School"), Wilmington, Delaware, a component unit of the State of Delaware, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

In our opinion, the financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Delaware Military Academy Charter School, Wilmington, Delaware, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The School's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for a reasonable period of time.

Board of Directors Delaware Military Academy Charter School

Emphasis of a Matter

As discussed in Notes 1 and 13 to the financial statements, the School has adopted the requirements of GASB Statement No. 87, "Lease Accounting." The purpose of this statement is to increase the usefulness of governmental financial statements by requiring recognition of certain lease assets and liabilities for all leases, including those that previously were classified as operating lease. As a result, the School has restated is governmental activities net position as of July 1, 2021. Our opinion is not modified with respect to this matter.

Report on Summarized Comparative Information

We have previously audited the School's 2021 financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated September 29, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 12, and the budgetary comparison schedule - general fund, schedule of the School's proportionate share of the net pension liability, schedule of School pension contributions, schedule of the School's proportionate share of the net OPEB liability, and schedule of School OPEB contributions on pages 43 through 47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School's basic financial statements. The combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, and schedule of expenditures by natural classification - governmental funds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, and schedule of expenditures by natural classification -

Board of Directors Delaware Military Academy Charter School

governmental funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, and schedule of expenditures by natural classification - governmental funds are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 27, 2022, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the School's internal control over financial reporting and compliance.

Barbacane, Thornton & Company LLP

BARBACANE, THORNTON & COMPANY LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the financial performance of the Delaware Military Academy Charter School ("the School") provides an overview of the School's financial activities for the year ended June 30, 2022, which is the School's nineteenth full year of operation. Please read it in conjunction with the independent auditor's report and the School's financial statements.

FINANCIAL HIGHLIGHTS

The School's net position increased by \$211,049, and general revenues accounted for \$6,652,126 or 87 percent of total revenues.

USING THE ANNUAL FINANCIAL REPORT

This annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so that the reader can understand the School as a whole and then proceed to provide an increasingly detailed look at specific financial activities.

REPORTING THE SCHOOL AS A WHOLE

The Statement of Net Position and Statement of Activities

One of the most important questions asked about School finances is, "Is the School better or worse off as a result of the year's activities?" The statement of net position and the statement of activities report information about the School as a whole and about its activities in a manner that helps to answer this question. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the School's net deficit and changes in net deficit. The change in net deficit provides the reader with a tool to assist in determining whether the School's financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors such as student enrollment stability and facility conditions in arriving at a conclusion regarding the overall health of the School.

REPORTING THE SCHOOL'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

Our analysis of the School's major funds and fund financial statements provides detailed information about the most significant funds - not the School as a whole. Some funds are required to be established by State statute, while other funds are established by the School to help manage money for particular purposes and compliance with various grant provisions.

Governmental Funds

All of the School's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. These funds are reported using the modified accrual method of accounting, which measures cash and other

financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the School's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources available to spend in the near future to finance the School's programs. The relationship (or differences) between governmental funds is reconciled in the statement of net position and the statement of activities) and governmental funds is reconciled in the basic financial statements. Activities related to capital assets, long-term debt, and compensated absences are the primary reconciling items.

Fiduciary Funds

The School is a fiduciary for its student and other activity assets that, due to a fiduciary arrangement, can be used only for student activities. All of the School's fiduciary activities are reported in separate Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. These activities are excluded from the School's other financial statements since these assets may not be utilized by the School to finance its operations.

ENTITY-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the School, assets and deferred outflows of resources were exceeded by liabilities and deferred inflows of resources resulting in a deficit of \$8,810,164 at the close of the fiscal year. A comparative net position analysis of fiscal years 2022 and 2021 follows:

	Governmental Activities

TOTAL EXPENSES	7,404,506	8,007,236
CHANGE IN NET DEFICIT	\$ 211,049	\$ (363,791)

Governmental Activities

Net deficit of the School's governmental activities decreased by \$211,049.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for governmental activities. General revenues that include charges to school districts, earnings on cash and investments, and state entitlements must support the net cost of the School's programs.

	20	022	2021			
	Total Cost	Net Cost	Total Cost	Net Cost		
Governmental Activities Instructional services Support services:	\$ 5,360,818	\$ 4,533,650	\$ 6,130,420	\$ 5,205,662		
Operation and maintenance of facilities Transportation	1,049,981 353,515	1,049,981 353.515	959,227 313.089	959,227 313,089		
Food service Interest on long-term debt	113,867 526,325	(22,394) 526,325	1,310 603,190	1,310 603,190		
Total Expenses	\$ 7,404,506	\$ 6,441,077	\$ 8,007,236	\$ 7,082,478		

The reliance on general revenues to support governmental activities is indicated by the net services column reflecting the need for \$6,441,077 of support.

THE SCHOOL'S FUNDS

The School's governmental funds (as presented on the balance sheet) as of June 30, 2022 reported a combined fund balance of \$5,051,087 compared to last year's total fund balance of \$4,955,307.

Governmental Funds

The School's fund balances increased overall due to revenues exceeding current year capital outlays related to the dome project and debt service. The table that follows assists in illustrating the financial activities and balance of governmental activities.

REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES

	Total Governmental Funds		
	2022	2021

NET CHANGE IN FUND BALANCES	95,780	1,784,943	
FUND BALANCES, BEGINNING OF YEAR	4,955,307	3,170,364	
FUND BALANCES, END OF YEAR	\$ 5,051,087	\$ 4,955,307	

The decrease in revenues for the year was due to payment of long-term pledges related to the School's capital campaign for the stadium project in the previous year. Other revenues were relatively consistent with the prior year.

Revenues and other financing sources exceeded expenditures and other financing uses by \$95,780.

General Fund

The general fund is the School's primary operating fund. It accounts for all financial resources of the School, except those required to be accounted for in another fund. The general fund had a fund balance of \$4,909,115 at June 30, 2022. This was a \$78,598 increase from the prior year. The increase in fund balance of the general fund is due mainly to additional state aid in the current year.

Capital Projects Fund

The Capital Projects Fund had a fund balance of \$95,536 at June 30, 2022. This was a \$17,218 increase from the prior year. The Capital Projects Fund was financed by transfers from other funds.

Seahawk CLS Fund

Seahawk CLS is a blended component unit of the school. It had a fund balance of \$48,436 at June 30, 2022. This was a \$36 decrease from the prior year. Seahawk CLS is funded through rental payments from the School, recorded as transfers in, and is utilized to pay the debt service related to the school property.

GENERAL FUND BUDGET INFORMATION

The School's General Fund budget is prepared in accordance with the modified accrual basis of accounting. The School may amend its revenue and expenditure estimates periodically due to changing conditions. The budget is presented as amended.

The following are explanations for the more significant variances between budget versus actual revenues and expenditures as shown on page 43.

Revenues

Charges to School Districts

An unfavorable variance of \$329,414 is attributed to the number of students attending the school from the various school districts and the rates charged for each student by district. The rates charged for each student are dependent on the prior year expenditures for each district.

Federal Aid

An unfavorable variance of \$263,099 results from the timing of recognition of federal funds. Federal funds are recognized when they are spent. These funds are typically 15-month grants, and their start/end dates do not align with the fiscal year. More federal funds will be spent in the next fiscal year to obligate the funds prior to the grants' various expiration dates.

Food Service

A favorable variance of \$56,261 is attributed to the School's re-opening due to the COVID-19 pandemic restrictions easing up and the students being physically in school for lunch.

Expenditures

Salaries and Benefits

An unfavorable variance of \$73,886 is largely attributed to an increased need for substitute teachers in FY 2022 from COVID-19 absences.

Repairs and Maintenance

An unfavorable variance of \$110,158 is largely attributed to School having increased building repair costs in the current year.

Supplies and Materials

An unfavorable variance of \$95,830 is attributed to needing more supplies then the prior year. The School didn't use as many supplies in 2021 due to school closures related to COVID-19. The School is committed to ensuring that students have the required instructional materials to further their education.

CAPITAL ASSETS

The School has \$18,667,185 invested in capital assets net of depreciation. Acquisitions totaled \$180,169. Depreciation expense for the year totaled \$603,924. Detailed information regarding capital asset activity is included in the notes to the basic financial statements.

DEBT ADMINISTRATION

At the end of the current fiscal year, the School has total notes payable outstanding of \$19,512,652 and lease liability of \$6,486. The majority of this debt is a direct result of purchasing the School facility and the construction of the new monolithic dome building and the lease liability is for a copier.

FACTORS EXPECTED TO HAVE AN EFFECT ON FUTURE OPERATIONS

Fiscal year 2022 was the nineteenth year of operation as a functioning school. In fiscal year 2020, the School completed construction on the football stadium. The stadium will house various school sports as well as provide a venue for various other events. The stadium will allow the School to host a wider range of athletic and other extracurricular events.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our fellow citizens, customers, parents, investors, potential investors, and creditors with a general overview of the School's finances. If you have questions about this report or need additional financial information, contact the School's Chief Financial Officer at (302) 998-0745.

DELAWARE MILITARY ACADEMY CHARTER SCHOOL RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2022

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 95,780
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized, and the cost is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which depreciation expense exceeded capital outlays in the current period.	
Capital outlays\$ 180,169Depreciation and amortization expense(603,924)	(423,755)
Some revenues reported in the statement of activities are not available to finance current expenditures and, therefore, are not reported as revenues in the governmental funds.	(131,040)
The issuance of long-term debt (e.g., notes, bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Similarly, amortization of premium reduces the liability in the statement of net position. Interest on long term debt is not accrued for in the governmental funds but is recognized on the statement of net position; therefore, the change in accrual must be recognized.	
Payment of note principal377,396Payment on lease12,969Amortization of bond refunding(76,349)	314,016
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
Compensated absences	131,040
Pension expenses in the statement of activities differ from the amount reported in the governmental funds because pension expenses are recognized on the statement of activities based on the School's proportionate share of the expenses of the cost-sharing pension plan, whereas pension expenditures are recognized in the governmental funds when a requirement to remit contributions to the plan exists.	835,029
OPEB expenses in the statement of activities differ from the amount reported in the governmental funds because OPEB expenses are recognized on the statement of activities based on the School's proportionate share of the expenses of the cost-sharing plan, whereas OPEB expenditures are recognized in the governmental funds when a requirement to remit contributions to the plan exists. NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Charter School

The Delaware Military Academy Charter School is organized under Delaware Code, Title 14, Chapter 5 of the State of Delaware. The Charter School Law grants authority for independent public schools to be created for the purpose of increasing choices for parents of public school students and increasing academic performance. A charter school is an independent public school governed by an independent board of directors. In Delaware, charter schools have the same basic standing as a school district with some exceptions - most notably, they may not levy taxes. To encourage innovation, charter schools operate free from a number of state laws and regulations. The Delaware Military Academy Charter School's initial charter was granted for a three-year period, renewable every five years thereafter.

Charter schools are funded similarly to other public schools in that state and local funds are allocated for each enrolled student. Public funds are not provided for facilities. Charter schools may charge for selected additional costs consistent with those permitted by other school districts. Because charter schools receive local, state, and federal funds, they may not charge tuition.

The Delaware Military Academy Charter School was established in November 2002 but did not begin a regular school year until September 2003. The year 2020 was the eighteenth full year of operations, which was funded primarily with state and local funding based upon student enrollment.

The financial statements of the Delaware Military Academy Charter School have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the Delaware Military Academy Charter School ("the School") are described below.

Reporting Entity

The School is a special purpose government and is considered a component unit of the State of Delaware. A component unit, although a legally separate entity, is, in substance, part of the State of Delaware's operations.

Blended Component Unit

Seahawk CLS LLC is a non-profit limited liability company established in April 2017 by the School for the purpose of supporting the School's future operations. The School is the sole corporate

NOTES TO FINANCIAL STATEMENTS

NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

member of Seahawk CLS LLC. In accordance with the requirements of GASB Statement No. 80, "Blending Requirements for Certain Component Units," Seahawk CLS LLC is considered a blended component unit.

Entity-wide and Fund Financial Statements

The entity-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the School. For the most part, the effect of interfund activity has been removed from these financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Separate financial statements are provided for governmental funds. The major individual governmental funds are reported as separate columns in the fund financial statements.

Amounts reported or to be reported as program revenues include 1) charges to students for special fees, supplies, or services provided; 2) operating grants and contributions; and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include charges to school districts.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Entity-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Charges to the School are recognized as revenues in the year for which they are billed. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service

NOTES TO FINANCIAL STATEMENTS

NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Charges to the school districts, state appropriations, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the School receives cash.

The School reports the following major governmental funds:

- General Fund The general fund is the School's primary operating fund. It accounts for all financial resources of the School, except those required to be accounted for in another fund.
- **Debt Service Fund** This fund is maintained to accumulate resources for the payment of interest and principal on long-term debt.
- **Capital Projects Fund** This fund is used to account for the acquisition, construction, and renovation of major capital facilities and their related capital assets.
- Seahawk CLS This fund is used to account rentals and debt service.

Fiduciary Funds

Fiduciary funds account for the assets held by the School as a trustee or agent for individuals, private organizations, and/or governmental units and are, therefore, not available to support the School's own programs. The School accounts for these assets in a custodial fund. The custodial fund accounts for funds held on behalf of students of the School. The custodial fund reports additions to and deductions from the custodial account. The measurement focus and basis of accounting for the custodial funds is the same as for entity-wide financial statements.

Cash and Pooled Cash

The School's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition, as well as cash deposits held in an investment pool controlled by the personnel of the State Treasurer's Office in Dover, Delaware.

Investments

Investments are recorded at fair value.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

In establishing the fair value of investments, the School uses the following hierarchy. The lowest level of valuation available is used for all investments.

Level 1 – Valuations based on quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 – Valuations based on quoted prices of similar products in active markets or identical products in markets that are not active or for which all significant inputs are observable, directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Capital Assets

Capital assets, which include a building, land improvements, furniture and fixtures, and equipment, are reported in the entity-wide financial statements. The School defines capital assets as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives of the assets are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest cost incurred during construction is not capitalized.

Capital assets of the School are depreciated and amortized using the straight-line method over the estimated useful lives of the related assets. The School generally uses the following estimated useful lives:

Building	40 years
Land improvements	15 years
Furniture and fixtures	10 years
Equipment	7 years
Right to use assets	term of lease

Compensated Absences

Vacation pay plus related payroll taxes are accrued when incurred in the entity-wide financial statements. A liability for these amounts is reported in the governmental funds only when the liability matures, for example, as a result of employee resignations and retirements. In addition, the State of Delaware Department of Education will reimburse the School for the liability.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

Vacation – Twelve-month employees can accumulate up to 42 days of vacation. Any days in excess of 42 are dropped as of July 1 of each year. Employees are paid for unused vacation upon termination and/or retirement at the current rate of pay.

Sick Leave – Sick leave allowances are as follows: teachers shall be allowed 10 days of sick leave per year, and annual employees earn one day of sick leave for each month worked. Any unused sick days shall be accumulated to the employee's credit up to a maximum of 90 days. Compensation for accumulated sick days is received when employees (a) qualify and apply for state pension and are paid at a rate of 50 percent of the per diem rate of pay not to exceed 90 days; or (b) in the case of death, when payment is made to the employee's estate at a rate of one day's pay for each day of unused sick leave not to exceed 90 days.

Fund Equity

Fund balance is displayed in the following classification (if applicable) depicting the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by formal action of the Board of Directors. The Board is the highest level of decision-making authority for the School. Commitments may be established, modified, or rescinded only through resolutions approved by the Board of Directors.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The Commandant may assign amounts for specific purposes.

Unassigned – all other spendable amounts.

When an expenditure is incurred for purposes for which both restricted and unassigned fund balances are available, the School considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board or the Commandant have provided otherwise in their commitment or assignment actions.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. The net investment in capital assets consists of capital assets, net of accumulated depreciation and unspent bond proceeds, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Any remaining portions of net position are reflected as unrestricted. When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first and then unrestricted resources as they are needed.

Income Tax Status

The School is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code and, therefore, has no provision for federal income taxes. The School qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization that is not a private foundation under Section 509(a)(1). The School did not engage in any unrelated business activities during the fiscal year. Management believes more likely than not that its tax-exempt status and tax positions will be sustained if examined by authorities.

Deferred Inflows and Outflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The School reports deferred pension and OPEB contributions resulting from pension and OPEB contributions subsequent to the measurement date of the net pension and OPEB liabilities, certain other items which represent differences related to changes in the net pension and OPEB liabilities which will be amortized over future periods, and deferred amounts of refundings which are amortized over the life of the note. In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element represents a source of net position that applies to future periods. The School reports certain items which represent differences related to changes in the net pension and OPEB liabilities which will be amortized over future periods of resources. This separate financial statement element represents a source of net position that applies to future periods. The School reports certain items which represent differences related to changes in the net pension and OPEB liabilities which will be amortized over future periods.

Use of Estimates in the Preparation of Financial Statements

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates

NOTES TO FINANCIAL STATEMENTS

NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Comparative Data

Comparative total data for the prior year is presented in the basic financial statements to provide an understanding of changes in the School's financial position and operations. That comparative data is not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America and has been restated and reclassified, as needed, from the presentation in the School's June 30, 2021 basic financial statements to be comparative with the current year presentation.

Implementation of GASB Statement

During the year ended June 30, 2022, the School implemented Governmental Accounting Standards Board ("GASB") Statement No. 87, "Lease Accounting." The purpose of this statement is to increase the usefulness of governmental financial statements by requiring recognition of certain lease assets and liabilities for all leases, including those that previously were classified as operating leases.

NOTE 2 CASH, POOLED CASH, AND INVESTMENTS

Deposits

At June 30, 2022, the School had a cash and pooled cash balance of \$6,022,007. Of that amount, \$5,840,972 is part of an investment pool controlled by the personnel of the State Treasurer's Office in Dover, Delaware. All investment decisions are made by the State Treasurer's Office. These funds are considered to be highly liquid and available for immediate use and, thus, are recorded as cash equivalents in these financial statements.

The funds held by the State of Delaware investment pool, an internal investment pool, are specifically identified for the School, but the credit risk cannot be categorized for these funds. Credit risk for such investments depends on the financial stability of the State of Delaware. The State reports that its investment securities are stated at quoted market prices, except that investment securities with a remaining maturity at time of purchase of one year or less are stated at cost or amortized cost.

At June 30, 2022, the reported amount of the School's deposits not held with the State Treasurer's Office was \$181,035, and the bank balance was \$186,989, all of which was covered by federal depository insurance.

NOTES TO FINANCIAL STATEMENTS

NOTE 2 CASH, POOLED CASH, AND INVESTMENTS (cont'd)

Investments

State statutes authorize the School to invest in U.S. government securities, government agency securities, certificates of deposit, time deposits and bankers' acceptances, corporate debt instruments, money market funds, and other similar instruments that are insured by the Federal Deposit Insurance Corporation ("FDIC") or are backed by the full faith and credit of the United States of America or any of its agencies or instrumentalities.

The School categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The School has the following recurring fair value measurements as of June 30, 2022:

Investment Type	Fair Value	Level 2
Delaware Community Foundation	\$ 86,419	\$ 86,419
TOTAL	\$ 86,419	\$ 86,419

The School's Level 2 investments are valued based on the value at which the investment could be redeemed as of the report date.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. As of June 30, 2022, none of School's investments were subject to custodial credit risk.

Interest Rate Risk

The School's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>Credit Risk</u>

The School's investment policy does not limit its investment choices to those with certain credit ratings.

NOTE 3 CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2022 is as follows:

NOTES TO FINANCIAL STATEMENTS

NOTE 3 <u>CAPITAL ASSETS</u> (cont'd)

Governmental Activities	Beginning Balance	Increase	Disposals	Ending Balance
Capital assets not being depreciated/ amortized:			<u> </u>	
Land	\$ 2,987,665	\$-	\$-	\$ 2,987,665
Total Capital Assets Not Being Depreciated/ Amortized	2,987,665			2,987,665
Capital assets being depreciated/amortized:				
Buildings	21,113,056	58,700	-	21,171,756

Depreciation and amortization expense was charged to the following activities:

Governmental Activities: Instructional services Operation and maintenance of facilities	\$ 56,368 547,556
	\$ 603,924

NOTE 4 LONG-TERM LIABILITIES

On March 9, 2019, the School was issued a \$5,500,000 note through the United Stated States Department of Agriculture as part of the Community Facilities Loans and Grants program. The funds from this issuance were used to fully refund the Series of 2016 Revenue Bonds. The note is secured by real estate and bears interest at a fixed rate of 2.375 percent per annum fixed for the life of the debt. The note matures March 9, 2048. The outstanding balance at June 30, 2022 was \$4,948,661.

On August 27, 2020 Seahawk CLS LLC issued two notes in the amounts of \$9,000,000 and \$6,000,000. The notes are secured by real estate and bear interest at a fixed rate of 2.25

NOTES TO FINANCIAL STATEMENTS

NOTE 4 LONG-TERM LIABILITIES (cont'd)

percent per annum fixed for the lives of the debts. The notes mature August 27, 2060. The outstanding balances at June 30, 2022 were \$8,738,395 and \$5,825,596, respectively. The proceeds were used to purchase the property from the School.

Interest expense was \$526,325 for the year ended June 30, 2022.

An analysis of debt service requirements to maturity on this obligation is as follows:

Year Ending June 30,	Principal	Interest	Total
2023	\$ 386,150	\$ 441,190	\$ 827,340
2024	393,923	433,417	827,340
2025	404,247	423,093	827,340
2026	413,626	413,714	827,340
2027	423,223	404,117	827,340
2028 - 2032	2,265,883	1,870,817	4,136,700
2033 - 2037	2,542,527	1,594,173	4,136,700
2038 - 2042	2,851,648	1,285,052	4,136,700
2043 - 2047	3,198,387	938,313	4,136,700
2048 - 2052	2,455,758	603,933	3,316,431
2053 - 2057	2,519,574	333,426	2,853,000
2058 - 2061	1,657,706	58,318	1,716,024
Total	\$ 19,512,652	\$ 8,799,563	\$ 28,312,215

A schedule of changes in long-term liabilities is as follows:

	Beginning 07/01/2021	Additions	Retirements	Outstanding 06/30/2022	Amounts Due within One Year
Governmental Activities					
Notes payable	\$19,890,048	\$-	\$ 377,396	\$19,512,652	\$ 386,150
Compensated absences	490,576	-	131,040	359,536	-
Lease liability	19,455	-	12,969	6,486	6,486
Net OPEB liability	15,387,048	93,006	-	15,480,054	-
Net pension liability	2,128,243		2,128,243		
Total	\$37,915,370	\$ 93,006	\$ 2,649,648	\$35,358,728	\$ 392,636

Notes payable are expected to be funded by the capital projects fund and Seahawk CLS fund. All other liabilities are expected to be funded by the general fund.

Lease Payable

The School has entered a leasing arrangement for copiers as of October 2017. The monthly cost of the lease is \$1,081 for 63 months and is set to expire December 2022.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 LONG-TERM LIABILITIES (cont'd)

Year Ending June 30,	Principal		Inte	Interest		Total	
2023	\$	6,486	\$	1	\$	6,487	

NOTE 5 <u>PENSION PLAN</u>

Plan Description

School employees are considered state employees and are covered under the State of Delaware Employees' Pension Plan ("the Plan"), which is a cost-sharing, multiple-employer defined benefit pension plan("the State PERS") established in the Delaware Code. The Plan is administered by the Delaware Public Employees Retirement System ("DPERS").

The State of Delaware General Assembly is responsible for setting benefits and contributions and amending plan provisions; administrative rules and regulations are adopted and maintained by the Board of Pension Trustees ("the Board").

The following are brief descriptions of the Plan in effect as of June 30, 2022. For a more complete description, please refer to the Delaware Employees' Pension Plan Annual Comprehensive Financial Report. Separately issued financial statements for the Plan may be obtained by writing to the State of Delaware Public Employee Retirement System, McArdle Building, Suite 1, 860 Silver Lake Boulevard, Dover, DE 19904; by calling 1-800-722-7300; or by visiting the PERS website at www.delawarepensions.com.

Plan Description and Eligibility

The State Employees' Pension Plan covers virtually all full-time or regular part-time employees of the State, including employees of other affiliated entities.

There are two tiers within this plan: 1) employees hired prior to January 1, 2012 (Pre-2012), and 2) employees hired on or after January 1, 2012 (Post-2011).

Benefits Provided

Service Benefits

Final average monthly compensation (employees hired Post-2011 may not include overtime in pension compensation) multiplied by 2.0 percent and multiplied by years of credited service prior to January 1, 1997, plus final average monthly compensation multiplied by 1.85 percent

NOTES TO FINANCIAL STATEMENTS

NOTE 5 <u>PENSION PLAN</u> (cont'd)

and multiplied by years of credited service after December 31, 1996, subject to minimum limitations. For this plan, final average monthly compensation is the monthly average of the highest three periods of twelve consecutive months of compensation.

Vesting

Employees hired Pre-2012 vest in the plan after five years of credited service. Employees hired Post-2011 vest in the plan after ten years of credited service.

Retirement

Employees hired Pre-2012 may retire at age 62 with five years of credited service; at age 60 with 15 years of credited service; or after 30 years of credited service at any age. Employees hired Post-2011 may retire at age 65 with at least 10 years of credited service; at age 60 with 20 years of credited service; or after 30 years of credited service at any age.

Disability Benefits

Disability benefits for those employees hired Pre-2012 are offered using the same calculations as the Service Benefits described above. Employees in this program must have five years of credited service. In lieu of disability pension benefits, over 90 percent of the members of this plan opted into a Disability Insurance Program offered by the State effective January 1, 2006. Employees hired Post-2011 are also included in the Disability Insurance Program.

Survivor and Burial Benefits

In the event of the death of a member of the Plan, the eligible survivor receives 50 percent of the benefits received under the pension (or 75 percent with a three percent reduction of the benefit). If the employee is an active member of the Plan with at least five years of credited service, the eligible survivor receives 75 percent of the benefit the active employee would have received at age 62.

Burial benefits are established at \$7,000 per plan member.

Contributions

Member Contributions

Employees hired Pre-2012 contribute three percent of earnings in excess of \$6,000. Employees hired Post-2011 contribute five percent of earnings in excess of \$6,000.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 <u>PENSION PLAN</u> (cont'd)

Employer Contributions

Employer contributions are determined by the Board of Pension Trustees. For the year ended June 30, 2022, the rate of employer contribution was 12.45 percent of covered payroll. The School's contribution to PERS for the years ended June 30, 2022 was \$423,842.

PRI Contribution

All reporting units participating in the State PERS make contributions to a PRI fund which accumulates resources to fund ad hoc postretirement increases granted by the General Assembly. The increases are funded over a five-year period from the PRI fund. The allocation of the contribution from the PRI fund to the Pension Trust is a reduction of the net pension liability of each participating employer.

At June 30, 2022, the School reported an asset of \$1,936,434 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2021, and the total pension liability used to calculate the net pension asset was determined by rolling forward the Plan's total pension liability as of June 30, 2020 to June 30, 2021. The School's proportion of the net pension asset was calculated based on the actual contributions made during the measurement period in proportion to the total of all employer contributions made during the measurement period. At June 30, 2021, the School's proportion was 0.1589 percent, which was a decrease of 0.0075 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the School recognized pension credit in the amount of \$411,187. At June 30, 2022, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Net difference between projected and			
actual investment earnings	\$-	\$ 3,889,753	
Changes of assumptions	349,866	-	
Changes in proportions	111,818	18,746	
Differences between actual and expected			
experience	293,514	-	
Contributions subsequent to the date of	,		
measurement	423,842		
	\$ 1,179,040	\$ 3,908,499	

NOTES TO FINANCIAL STATEMENTS

NOTE 5 <u>PENSION PLAN</u> (cont'd)

Pension Asset and Expense, and Deferred Outflows and Inflows of Resources

An amount of \$423,842 is reported as deferred outflows of resources resulting from the School's contributions subsequent to the June 30, 2021 measurement date and will be recognized as an adjustment of the net pension asset in the year ended June 30, 2023. Other amounts will be reported as deferred outflows of resources and deferred inflows of resources related to pensions, and will be recognized in pension expense as follows:

Year Ending June 30,

2023	\$ (805,285)
2024	(776,568)
2025	(857,728)
2026	(806,213)
2027	<u>92,493</u> <u>\$(3,153,301)</u>

Actuarial Assumptions

The total pension liability as of the June 30, 2021 measurement date was determined by an actuarial valuation as of June 30, 2020, and update procedures were used to roll forward the total pension liability to June 30, 2021. These actuarial valuations used the following actuarial assumptions, applied to all periods:

- Investment return/discount rate 7.0 percent, including inflation of 2.5 percent
- Salary increases 2.5 percent plus merit, including inflation of 2.5 percent
- Cost-of-living adjustments ad hoc

The total pension liability is measured based on assumptions pertaining to interest rates, inflation rates, and employee demographic behavior in future years. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the actual experience deviates, the larger the impact on future financial statements.

Mortality rates were based on the RP-2014 tables with gender adjustments for healthy annuitants and disabled retirees, and an adjusted version on MP-2015 mortality improvement scale on a fully generational basis.

Projected benefit payments do not include the effects of projected ad hoc cost-of-living adjustments ("ad hoc COLAs"), as they are not substantively automatic. The primary considerations relevant to making this determination include the historical patterns of granting the changes and the consistency in the amounts of the changes.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 PENSION PLAN (cont'd)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Plan are summarized in the following table:

Long-term Expected Real Asset Class Rate of Return		Target Asset Allocation
Domestic equity	5.7%	32.3%
International equity	5.7%	18.1%
Fixed income	2.0%	20.6%
Alternative investments	7.8%	24.2%
Cash and equivalents	0.0%	4.8%

Discount Rate

The discount used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at rates determined by the Board of Pension Trustees, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension asset, calculated using the discount rate of 7.0 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.0 percent) or one percentage point higher (8.0 percent) than the current rate.

	1%		Current	1%	
	Decrease		Discount Rate	Increase	
	6.0%		7.0%	8.0%	
School's proportionate share of the net pension liability (asset)	\$	236,674	\$ (1,936,434)	\$ (3,760,332)	

NOTES TO FINANCIAL STATEMENTS

NOTE 5 <u>PENSION PLAN</u> (cont'd)

Pension Plan Fiduciary Net Position

Detailed information about the PERS' fiduciary net position is available in the PERS Annual Comprehensive Financial Report, which can be found on the Plan's website at www.delawarepensions.com.

NOTE 6 OTHER POSTEMPLOYMENT BENEFITS PLAN

Plan Description

School employees are considered state employees and are covered under the State of Delaware Employees' Other Postemployment Benefits ("OPEB") Fund Trust ("the Plan"), which is a cost-sharing, multiple-employer defined benefit plan established by the Delaware Code.

The State of Delaware General Assembly is responsible for setting benefits and contributions, and amending plan provisions; administrative rules and regulations are adopted and maintained by the DPERS Board of Pension Trustees, which acts as the Board of Trustees ("the Board") for the Plan and is responsible for the financial management of the Plan.

The following are brief descriptions of the Plan in effect as of June 30, 2022. For a more complete description, please refer to the Delaware Public Employees' Retirement System Annual Comprehensive Financial Report. Separately issued financial statements for the Plan may be obtained by writing to the State of Delaware Public Employee Retirement System, McArdle Building, Suite 1, 860 Silver Lake Boulevard, Dover, DE 19904; by calling 1-800-722-7300; or by visiting the PERS website at www.delawarepensions.com.

Plan Description and Eligibility

The Plan is a cost-sharing multiple employer plan that covers all employees of the State that are eligible to participate in the defined benefit pension plan, including employees of other affiliated entities.

Benefits Provided

The Plan provides medical coverage to pensioners and their eligible dependents. The participant's cost of Plan benefits is variable based on years of service. Pensioners who retire after July 1, 2012 and who become eligible for Medicare will pay an additional five percent of the Medicare Supplement offered by the State. Surviving spouses are eligible for coverage after a retiree's death.

NOTES TO FINANCIAL STATEMENTS

NOTE 6 OTHER POSTEMPLOYMENT BENEFITS PLAN (cont'd)

Contributions

Employer Contributions

Participating employers fund the Plan for current retirees on a pay-as-you-go basis along with funding for future benefits at a rate that is approved in the annual budget, but not actuarially determined. For the year ended June 30, 2022, the rate of the employer contribution was 11.48 percent of covered payroll. The School's contribution to the Plan for the year ended June 30, 2022 was \$390,843.

Other Postemployment Benefits Plan Liability and Expense, and Deferred Outflows and Inflows of Resources

At June 30, 2022, the School reported a liability of \$15,480,054 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total pension liability used to calculate the net OPEB liability was determined by rolling forward the Plan's total OPEB liability as of June 30, 2020 to June 30, 2021. The School's proportion of the net OPEB liability was calculated based on the actual contributions made during the measurement period in proportion to the total of all employer contributions made during the measurement period. At June 30, 2021, the School's proportion was 0.1535 percent, which was an increase of 0.0057 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the School recognized OPEB expense of \$1,000,864. At June 30, 2022, the School reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Net difference between projected and actual investment earnings	\$ -	\$ 178,820	
Changes in proportions	696,638	121,602	
Changes in assumptions	2,681,672	507,335	
Net difference between expected and			
actual experience	371,228	2,130,259	
Contributions subsequent to the date of			
measurement	390,843	<u> </u>	
	\$ 4,140,381	\$ 2,938,016	

An amount of \$390,843 is reported as deferred outflows of resources resulting from the School's contributions subsequent to the June 30, 2021 measurement date and will be recognized as

NOTES TO FINANCIAL STATEMENTS

NOTE 6 OTHER POSTEMPLOYMENT BENEFITS PLAN (cont'd)

a reduction of the net OPEB liability in the year ended June 30, 2023. Other amounts will be reported as deferred outflows of resources and deferred inflows of resources related to OPEB, and will be recognized in OPEB expense as follows:

Year Ending June 30,

\$ (103,233)
195,843
298,801
457,681
(37,570)
\$ 811,522

Actuarial Assumptions

The total OPEB liability as of the June 30, 2021 measurement date was determined by an actuarial valuation as of June 30, 2020, and update procedures were used to roll forward the total OPEB liability to June 30, 2021. These actuarial valuations used the following actuarial assumptions:

- Discount rate 2.16 percent
- Salary increases 3.25 percent + merit
- Healthcare cost trend rates 5.50 percent

Mortality rates are based on the sex-distinct employee, healthy annuitant, and disabled annuitant mortality tables derived from the Pub-2010 General Benefits Weighted Annuitant Mortality Table, including adjustment facts. Future mortality improvements are reflected by applying a custom projection scale on a generational basis to adjusted base tables from the base year.

The total OPEB liabilities are measured based on assumptions pertaining to the interest rates, inflation rates, health costs, and employee demographic behavior in future years. The assumptions used were based on the results of an actuarial experience study performed in 2021 and covering the period July 1, 2015 through June 30, 2020. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates the larger the impact on future financial statements.

Discount Rate

The discount rate to measure the total OPEB liability was 2.21 percent at the beginning of the current measurement period and 2.16 percent at the end, based on the Bond Buyer GO 20-

NOTES TO FINANCIAL STATEMENTS

NOTE 6 OTHER POSTEMPLOYMENT BENEFITS PLAN (cont'd)

Bond Municipal Bond Index, an index satisfying the GASB requirement of an index rate for 20year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that employer contributions to the Plan will continue to follow the pay-as-you-go contribution policy. Based on the assumptions of a pay-as-you-go plan, the discount rates used at the June 30, 2021 and 2020 measurement dates are equal to the applicable rate of the 20-year, taxexempt general obligation municipal bonds with an average rating of AA/Aa or higher.

<u>Sensitivity of the School's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate</u>

The following presents the net OPEB liability, calculated using the discount rate of 2.16 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.16 percent) or one percentage point higher (3.16 percent) than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	1.16%	2.16%	3.16%
School's proportionate share of the net OPEB liability	\$ 18,495,629	\$ 15,480,054	\$ 13,097,255

<u>Sensitivity of the School's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates</u>

The following presents the net OPEB liability, calculated using the healthcare cost trend rate of 5.5 percent, as well as what the net OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point lower (4.5 percent) or one percentage point higher (6.5 percent) than the current rate.

	Current		
	1%	Healthcare	1%
	Decrease 4.5%	Trend Rate 5.5%	Increase 6.5%
School's proportionate share of the net OPEB liability	\$ 12,661,476	\$ 15,480,054	\$ 19,191,615

Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the PERS Annual Comprehensive Financial Report, which can be found on the Plan's website at www.delawarepensions.com.

NOTES TO FINANCIAL STATEMENTS

NOTE 7 <u>RISK MANAGEMENT</u>

The School has purchased commercial insurance policies for various risks of loss related to torts; theft, damage, or destruction of assets; errors or omissions; injuries to employees; or acts of God. Payments of premiums for these policies are recorded as expenses of the School. Insurance settlements have not exceeded insurance coverage in the past year.

NOTE 8 <u>UNCERTAINTIES</u>

<u>Grants</u>

The School receives financial assistance from federal agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the State Office of Auditor of Accounts and other federal agencies. Any disallowed claims resulting from such audits could become a liability of the general fund. The School's administration believes such disallowance, if any, would be immaterial.

COVID-19 Pandemic

As a result of the spread of the COVID-19 coronavirus which is ongoing at June 30, 2022, economic and operational uncertainties have arisen which may impact the School in fiscal year 2023. While the School has fully resumed in-class learning, there continues to be uncertainty regarding the potential for another resurgence of the virus, which may require another period of remote or hybrid learning. The extent of the potential impact is unknown as the COVID-19 pandemic continues to develop.

NOTE 9 EXCESS EXPENDITURES OVER APPROPRIATIONS

The School incurred expenditures in excess of appropriations in the following categories for the year ended June 30, 2022:

Salaries	\$ 21,849
Benefits and employment costs	\$ 52,037
Travel	\$ 650
Insurance	\$ 2,463
Repairs and maintenance	\$ 110,158
Supplies and materials	\$ 95,830
Capital outlays – equipment	\$ 1,480

The excess expenditures were covered through the use of existing fund balance.

NOTES TO FINANCIAL STATEMENTS

NOTE 10 FUND BALANCES

As of June 30, 2022, fund balances are composed of the following:

	General Fund	-	eahawk CLS Fund	Capital Projects Fund	Go	Total overnmental Funds
Committed:						
Delaware Community						
Foundation	\$ 86,419	\$	-	\$ -	\$	86,419
Capital	500,000		-	-		500,000
JROTC	81,522		-	-		81,522
Restricted:						
Capital projects	-		-	93,536		93,536
Debt service	-		48,436	-		48,436
Unassigned	 4,241,174		-	 -		4,241,174
Total Fund Balances	\$ 4,909,115	\$	48,436	\$ 93,536	\$	5,051,087

During 2007, the School received contributions of \$30,014 to be held with the Delaware Community Foundation. The monies held are to be spent at the discretion of the Board of Directors. As of June 30, 2022, the balance was \$86,419. In addition, the Board has committed \$500,000 for future capital needs and \$81,522 for the JROTC program as of June 30, 2022.

NOTE 11 INTERNAL TRANSFERS

Interfund transfers for the year ended June 30, 2021 are as follows:

Transfer In	Transfer Out	Amount
Capital Projects Fund	General Fund	\$ 256,740
Seahawk CLS Fund	General Fund	\$ 570,600

Transfers from the general fund to the capital projects and the Seahawk funds were to cover current year debt service payments. There were no interfund payables or receivables as of June 30, 2022.

NOTE 12 DEFICIT NET POSITION

For governmental activities, the unrestricted net deficit amount of \$12,098,033 includes the effect of deferring the recognition of pension and OPEB contributions made subsequent to the measurement date of the net pension asset and net OPEB liability, and the deferred outflows

NOTES TO FINANCIAL STATEMENTS

NOTE 12 <u>DEFICIT NET POSITION</u> (cont'd)

related to the pension and OPEB plans. This is offset by the School's actuarially determined pension liability and OPEB liability, and the deferred inflows related to the pension and OPEB plans.

NOTE 13 CHANGE IN ACCOUNTING PRINCIPLE

In accordance with the adoption of GASB Statement No. 87, as discussed in Note 1, the School has restated its July 1, 2021 net position in its governmental activities to record the right to use assets and lease liabilities associated with the School's leasing arrangements at June 30, 2021. The net result of this change is an increase of \$6 in net deficit in its governmental activities.

NOTE 14 SUBSEQUENT EVENTS

The School has evaluated all subsequent events through September 27, 2022, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

September 27, 2022

Board of Directors Delaware Military Academy Charter School Wilmington, Delaware

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Delaware Military Academy Charter School ("the School"), Wilmington, Delaware, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School's basic financial statements and have issued our report thereon dated September 27, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Board of Directors Delaware Military Academy Charter School

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
