

## **GEOMETRY SUMMER ASSIGNMENT**

Cadets who are taking Geometry during the 2024-2025 school year are required to create a free account with DeltaMath using any e-mail address for their log-in. This can be done by visiting [www.deltamath.com](http://www.deltamath.com) and creating a free student account. Cadets are then to join the school's Geometry classroom appropriately titled "DMA Geometry Summer Work" by using the classroom code **2S9E-66XH** or link: <https://www.deltamath.com/students?code=2S9E-66XH>

From here cadets will be assigned activities to complete to prepare them for Geometry in the fall or spring. Activities will pertain to fractions, linear equations, ratios, and the coordinate plane. Any questions, please contact: [valerie.limmina@dma.k12.de.us](mailto:valerie.limmina@dma.k12.de.us)

Due: Monday, September 9 (for both Fall and Spring Geometry courses)

Estimated Time: 3-5 Hours
