

AP CALCULUS SUMMER ASSIGNMENTS

Cadets who are taking AP Calculus AB during the 2023-2024 school year are required to create a free account with DeltaMath using their school e-mail address for their log-in. This can be done by visiting www.deltamath.com and creating a free student account. Cadets are then to join the school's AP Calculus AB classroom appropriately titled "The 2023-2024 Zoom6 AP Calculus" by using the classroom code **8V6W-M5P7**. Students with a prior DeltaMath account can join using the link <https://www.deltamath.com/students?code=8V6W-M5P7>. From here cadets will be assigned activities to complete to prepare them for AP Calculus in the fall. Activities will pertain to the Unit Circle, Linear Equations, and Limits.

Students must also join the AP Calculus AB Band Page by creating a free Band App account and visiting <https://band.us/n/a4ab91J7Sbha0> to join. Here they will find short videos that will help them get started on each of the summer activities. Cadets must take notes on each of the very short videos and have these notes ready to be submitted upon return to school. Both the DeltaMath work and the Band App video notes should be done no later than Wednesday, September 6.

Estimated Time: 10-12 Hours
